The **McGraw-Hill Architectural, Engineering and Accounting Email Database** allows you to reach captains of industry in architecture, engineering, and accounting. These decision-makers are paid and controlled subscribers to McGraw-Hill's award winning publications. They are owners, partners, CEO's, CFO's, presidents, IT, engineers, architects, sales, marketing and financial executives that have the purchasing authority to buy your products and services.

These architectural, engineering and accounting professionals are responsible for designing, creating and maintaining buildings as well as specifying products and materials for both buildings and their interiors throughout all construction sectors. They want information on products such as tax and general accounting, architectural and engineering software, time and billing programs, practice management, professional services, designing, creating and maintaining buildings and specifying products and materials for both buildings and their interiors throughout all construction sectors.

The professionals on this list regularly purchase seminars, hardware and software products, office supplies, travel, publications and more for their firms and exercise substantial influence on purchasing decisions for their clients. The McGraw-Hill subscriber files are highly selectable, response-proven and well-maintained...add them to your next campaign today.
